✓ Projects

- **ICE-CREAM**
I entered the world of front-end development by gaining some knowledge in HTML, CSS, and JavaScript. I used my knowledge of these languages, along with my new skills in VS Code, to build a landing page about ice cream. The page utilizes JavaScript functions to create user interaction. - **WEATHER APP**
I built a weather app in SheCodes Plus, an advanced 8-week JavaScript coding workshop. Building upon my previously-gained knowledge, I also became skilled in Bootstrap, API's, real-life development workflow, hosting,

and advanced JavaScript. I combined all of these skills to create a fully-functioning weather app. The final project : <https://main-strong-paletas-78f719.netlify.app/>
